# WEATHER OF CONCERN

## Weather of Concern

- Wet and windy weather will continue to affect California this week with the potential for river / stream flooding and possible power outages due to strong winds.

## **Active Weather Warnings, Watches and Advisories by County:**

[http://www.wrh.noaa.gov/sto/brief/wwa\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php)

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

A series of rather wet weather systems will flow through the region region this week. Gusty southerly winds will continue today for the eastern 2/3 of the region with gusts 20-35 mph common and 40-45 mph at the higher elevations possible. Those winds will be on a gradual decrease this afternoon. There will be only periodic breaks in the wet weather this week. The heaviest precipitation periods are expected Tuesday and Thursday, but every day is likely to see some precipitation in the region. Windy conditions will develop again throughout this week at times, and probably be of about the same speeds as today or somewhat lower. The lowest snow levels with these events should be around 4500 feet or so in the north and 6000 feet in the south for most of the week but often higher. However, the far northwest areas may see snow levels drop to around 2500 feet later today and again Wednesday for a while. Precipitation should eventually end over the region Friday, and high pressure will bring dry, sunny or partly cloudy conditions to the region for the weekend into early next week with warmer temperatures. More wet weather systems appear likely to be over the region later next week.

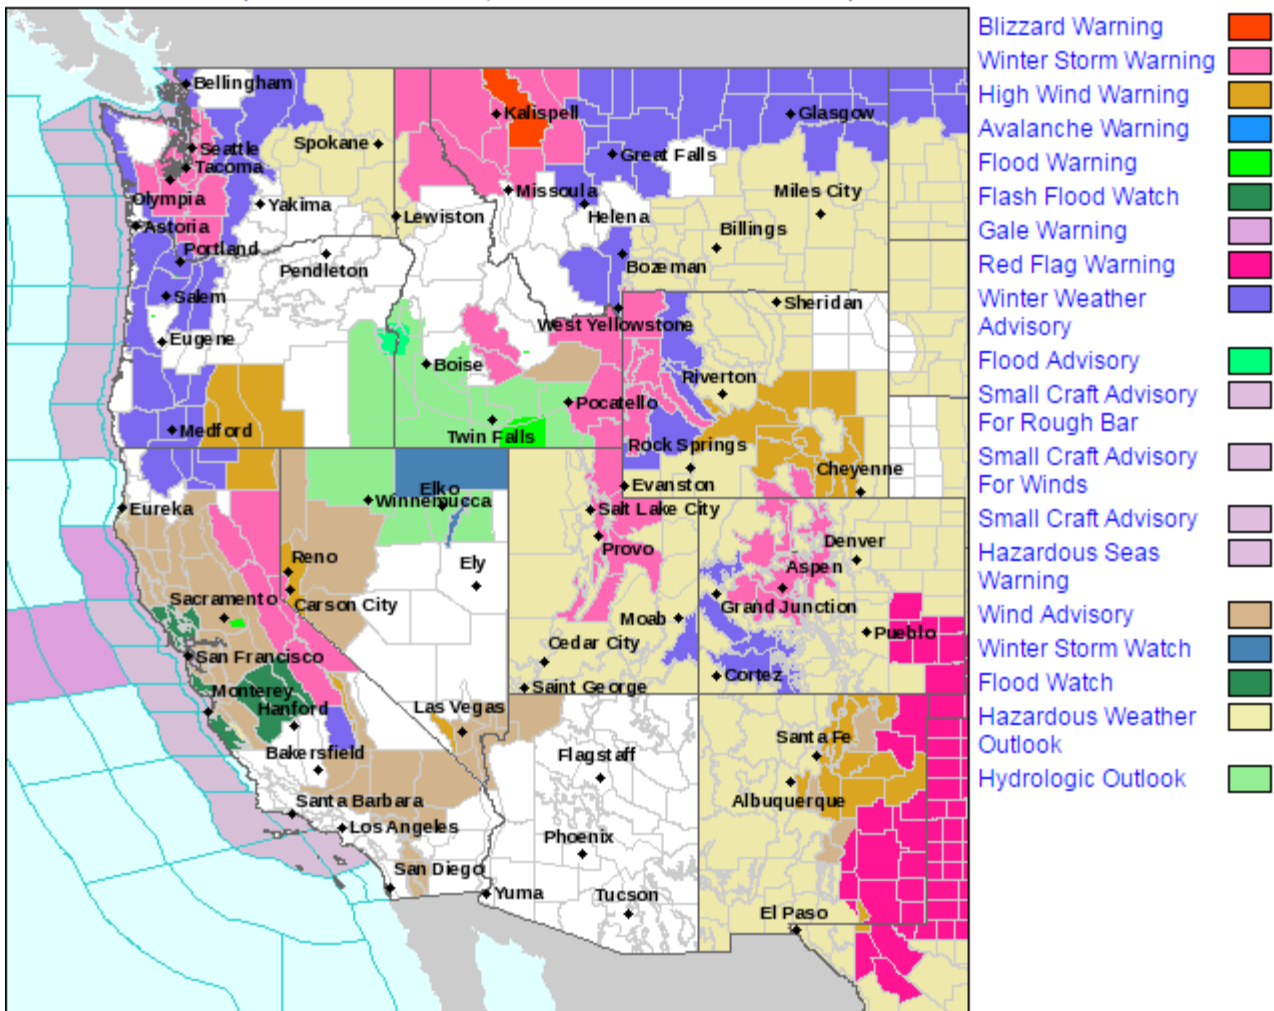

## **SOUTHERN CALIFORNIA**

Moist zonal flow will bring periods of rain away from the deserts through tonight night. Most locations away from the deserts will receive between 0.50 and 1.50 inches of rainfall, but most Central Sierra and surrounding foothill locations will receive between 4 and 8 inches of rainfall. The snow level will be above 8,000 feet. South to west winds of 15 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas through tomorrow night. Temperatures will be near normal through tomorrow, with mid 40s to mid 50s across the mountains and upper 50s and 60s in the valleys. A ridge of high pressure building north from Mexico will cause the rain to end across Southern California Wednesday morning, but scattered showers will not end across Central California till the afternoon. The ridge of high pressure will bring warming to the region Wednesday and Thursday. A Pacific trough will drop south from the Gulf of Alaska bringing showers back to Central California starting Thursday afternoon and to Southern California starting Friday morning. This storm looks to bring another 0.5 to 1.5 inches to much of Central California, while most of Southern California receives between a quarter inch and a half inch of rainfall. The snow level will be mainly between 6,000 and 7,000 feet. Showers with this storm will end Friday night. A ridge of high pressure will bring a warming and drying trend to the area this weekend. There will be strong offshore winds across Southern California starting Sunday morning and they will continue through Monday night.

## WEATHER MAP

Last map update: Feb, 6th 2017 at 10:46:43 am MST

# Cal OES LAW ENFORCEMENT MISSIONS

## Closed Cal OES Law Missions

- **2017-LAW-30057: 2/4/17 @ 1628 hours:** IERCC Reported a Delorme In Reach activation in the mountains near Palm Springs, Riverside County. Riverside County Sheriff was notified and advised that they were working on a lost hiker in the same area. Riverside County later advised that they had located the lost hiker and believed that the lost hiker was related to the In Reach activation. Weather and terrain conditions prevented a helicopter extraction. Riverside County planned on supporting the group overnight and evaluating methods for extraction the morning of 2/5/17. **Update 2/5/17:** [Riverside County was able to deploy a helicopter and extract the stranded subjects. IERCC and family notified. Mission Closed.](#)

# Cal OES MISSIONS

## Cal OES Missions

- **2016-Coastal-26477:** Cal Recycle debris removal assistance requested for the Clayton Fire in Lake County; on scene through 02/06/17. **Mission Ongoing.**
- **2016-IREOC-21748:** Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**

# **Cal OES 2017 DROUGHT**

**The SOC remains activated in support of the Drought State of Emergency and continues to monitor the situation.**

## **Current Local Emergency Proclamations:**

A total of **57** local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 24 Counties: Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Madera, Mariposa, Merced, Modoc, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Rancho Cucamonga (San Bernardino County), City of West Sacramento (Yolo County), and City of Fort Bragg (Mendocino County).
